2025
ESTATE BOTTLED RED MOUNTAIN
ROSÉ OF SANGIOVESE

In just ten years, rosé wines grew from a novel afterthought to one of the hottest categories in the drinks industry. This certainly holds true at Kiona, where our yearly iteration consistently sells out despite regular increases in production.

The 2025 Estate Bottled Red Mountain Rosé of Sangiovese hails exclusively from our Kiona Estate vineyard, where we dedicate rows specifically for rosé production. Sangiovese is a red wine grape, but for rosé, we're not concerned with deep color and ripeness as we might be if we were producing a red wine. We farm the rosé-destined rows at a higher yield, resulting in more acid and less color concentration, much like we would a white cultivar. It's fair to think of this as a white wine produced from red grapes.

There's a reason Sangiovese is used to make some of the world's most famous—and delicious—rosés. The stalwart Italian grape thrives in this role, exhibiting incredible freshness, layered, nuanced texture, and beautiful color, all buoyed by food-friendly acidity. For friends and lovers.
